THE OLD DOMINION

COFFEE POT. THIS new Corres Por, for which a patent has been I issued, possesses this advantageover all others you may holl coffee in it for any length of time, with out a particle of the strength or aroma escaping. One fourth less coffee is required, and the full flavor of the berry retained. A large number of testimonials have en received from those who have used it. We have space for only one:
The Old Dominion Coffee Por.—We have had in use now, for over two months, one of these much talked of coffee pots, and we find that it does, in all respects what is claimed for it. You may boil coffee in the Old Dominion for any length of time you choose, and ye lose none of the delicate aroma or strength. This desirable end is attained by a simple, but ingenious, contrivance in the shape of a condenser, with do ble syphons, by means of which the aroma bearing vapor, which usually goes all over the the chimney, is condensed and thrown back into the coffee-boiler, and you have its delicious flavor in the cup you bring to your lips. In all our experience of coffee-drinking, we never found anything equal to what we now have daily at our morning meal. It is the perfection of coffee.—Philadelphia Evening Jour-M PSizes 1, 1%, 2, 3, 4, 6, 10, and 16 quarts. Larger sizes made to order.

PATENT

Elastic Fire and Water Proof

CEMENT ROOFING.

THE undersigned purchased the State Right for Tennessee of the above patent about one year ago and has since introduced it extensively in various portions of the State, asks now the attention of build-

ers, and the public generally, to examine its superior-ity over other medes of Rosding.

The material forms a hard and smooth surface. It is impervious to water, elastic and flexible; it will

ericctly resist any ordinary exposure to fire; it is reaper than any roof of the old style, and I am sure

it will give better satisfaction; as to its durability there is no question. It is the best thing ever invented for painting of old leaky tip roofs.

By the Cement will be furnished to those at a discovery the discovery of the contents.
